**Description:**

This database is an index to all individuals enumerated in the 1900 United States Federal Census, the Twelfth Census of the United States. In addition, the names of those listed on the population schedule are linked to actual images of the 1900 Federal Census, copied from the National Archives and Records Administration microfilm, T623, 1854 rolls. (If you do not initially find the name on the page that you are linked to, try a few pages forward or backward, as sometimes different pages had the same page number.)

Enumerators of the 1900 census were instructed to record the names of every person in the household. Enumerators were asked to include the following categories in the census: name; address; relationship to the head of household;
